SUSTAINABILITY

elle cuisine works closely with clients, suppliers and industry partners to ensure that we take advantage of every opportunity to minimize the carbon footprint of our events.

We support small local vendors at every choice, many of which we have been working with since *elle cuisine*'s inception. This has a direct impact on our sustainability efforts. Our local food supplier partners source their products from local farms and vendors whenever possible. By supporting small, Canadian producers, we limit our carbon foot print and support the local economy.

elle cuisine recognizes their role in ensuring we do our part towards making our planet a greener place. *elle cuisine* is committed to 'green' practices that promise to limit landfill waste. From kitchen prep to event execution, we practice these guidelines:

- We encourage the use of glassware over disposables, as it can be cleaned and reused.
- Reduce the use of plastics at every opportunity.
- Recycling & green waste.
- Eco-friendly cleaning supplies & reusable towels.
- Disposables, when requested by the client, are biodegradable and/or made from recycled materials.
